PROFESSIONAL SUMMARY

Software Engineer with 3+ years of experience developing and maintaining ASP.NET MVC and ASP.NET Core web applications end-to-end, from responsive front-end UI to SQL Server business logic. Delivered four production applications for clients in Australia and the United States, covering payments, digital marketing, booking systems, and student portals. Strong in C#, Entity Framework, LINQ, Web API / REST integration, Angular, and T-SQL (stored procedures, functions), with hands-on experience in API testing, Agile delivery, and CI/CD deployment using Bitbucket and Jenkins.

TECHNICAL SKILLS

Languages: C#, T-SQL, TypeScript, JavaScript, HTML5, CSS3

Frameworks & Libraries: ASP.NET MVC, ASP.NET Core, Web API, Entity Framework, LINQ, Angular 13, jQuery, AJAX, Bootstrap, SignalR, DataTables, Kendo UI, DevExpress

Databases: Microsoft SQL Server 2019 / 2022, MySQL, Stored Procedures, User-Defined Functions

Tools & DevOps: Git (Bitbucket), Jenkins (CI/CD), Visual Studio, Postman, Swagger, IIS 6.0 / 7.0 / 10

Practices: Object-Oriented Programming, MVC Architecture, RESTful API Integration, API Testing, Debugging, SDLC, Agile

AI Tools: Codex (requirement analysis, feature implementation), Claude (bug fixes, code review), MCP (evaluated on sample project)

WORK EXPERIENCE

Software Engineer **Aug 2023 – Oct 2026**

Tender Software India Pvt. Ltd. | Puducherry, India

Full-stack .NET developer on small Agile teams (2–3 members), building and maintaining client-facing web applications for clients in Australia and the US. Responsible for front-end development, SQL Server business logic, API integration and testing, and CI/CD deployment via Bitbucket and Jenkins.

Market Pro Website · *Client: Australia* · *Team of 3* *Aug 2023 – Jan 2026*

- Developed responsive front-end components with DevExpress, jQuery, AJAX, and JavaScript for a digital marketing agency platform serving multiple client accounts.
- Implemented business logic using SQL Server stored procedures and functions with Entity Framework and LINQ, reducing redundant data-access code across modules.
- Tested and validated REST APIs and backend functions using Postman, reducing integration defects reported during QA cycles.

REVLR — Club Table Booking App · *Team of 3* *Jun 2024 – Nov 2024*

- Built Angular 13 front-end features using services, enabling real-time table availability and booking updates.
- Integrated REST APIs end to end on the Angular front end, connecting booking, payment, and notification services.

Market Pay Website · *Client: Market Pay, Australia* · *Team of 3* *Aug 2024 – Jan 2026*

- Developed, customized, and deployed a payments web application supporting multiple payment methods for retail merchants.
- Developed and maintained transaction and claims modules, including database design and user-defined functions.
- Configured application settings, database backups, and transaction reporting using SQL Server functions and stored procedures, improving reporting turnaround for finance teams.
- Built transaction dashboards and reporting screens using Kendo UI and TypeScript.

LaunchLife International Website · *Client: United States* · *Team of 2* *Feb 2026 – Oct 2026*

- Built the front end of a full-scale student portal (deployed for institutions in Canada and the US) using Bootstrap, jQuery, and JavaScript.
- Developed SQL Server functions and stored procedures supporting enrollment and academic record workflows.
- Tested and validated Canvas LMS API integrations using Postman, ensuring reliable data sync between the portal and Canvas.

EDUCATION

Bachelor of Engineering (B.E.), Electronics and Communication Engineering 2020
University College of Engineering, BIT Campus, Tiruchirappalli — 64.41%

Higher Secondary Certificate (HSC) 2016
Bonne Nehru Higher Secondary School, Thirukkanur — 90.58%

SSLC 2014
Bonne Nehru Higher Secondary School, Thirukkanur — 93.8%

LANGUAGES

Tamil, English
